# RIVERBANK GARDENS

## SELECT DAHLIAS

1916--1917

3

The varieties in the list all of which I have carefully tested out, are unquestionably the cream of the American and European productions.

The varieties marked thus (xxx) have received the highest awards at the great trials at Cardiff and Edinburgh, held by the Royal Horticultural and the National Dahlia Societies of Great Britain, to determine Garden Decorative Value. Those marked (\*\*\*) have been given the Award of Merit of the Royal Horticultural Society, or the First Class Certificate of the National Dahlia Society of Great Britain, usually both, or similar awards from the corresponding societies of Holland.

If the buyer prefers to leave the selection of varieties to me, choice collections will be sent, postpaid, for \$2.00 each, as follows:—12 Cactus, or 12 Peony, or 12 Decorative, or 12 Pompon, or 12 from the various sections, assorted as desired, but in all cases the choice of varieties must be left entirely to me.

All the varieties herein offered will be supplied in field-grown roots as long as my supply permits. Thereafter well rooted green plants will be furnished. The use of these plants will cause the inexperienced grower no trouble, and will give equally good results in every way; in fact, they are greatly preferred by most exhibitors and by many growers of Dahlias for cutting.

I am always pleased to have visitors inspect my fields of both Dahlias and Gladioli especially during the months of August and September when the

flowers make a show well worth seeing.

#### RAYMOND W. SWETT, Saxonville - - - Massachusetts

#### CACTUS Each xxxArthur Pickard. Large pinkish salmon, lighter tips. Good all-round dahlia 25c Betty Dean. Lilac-fawn . 20c Beauport Beauty. Yellow-buff overlaid salmon. Stiff stem Bridal Robe.
